DETAILED ACTION

Acknowledgment of papers filed: IDS on 3 July 2006. The papers filed 1. have been placed on record.

Allowable Subject Matter

- Claims 1-3, 6-28 and 32-59 renumbered as 1-54 are allowed. 2.
- The following is an examiner's statement of reasons for allowance: 3.

The prior art of record does not teach or fairly suggest a load signal, which is true or false, indicating in a second clock cycle whether an entry is loaded into the bottom of a gueue in a first clock cycle wherein the second clock cycle is subsequent to the first clock cycle combined with other limitations recited in allowable claims. Further, the claims limit the invention to tangible embodiments. Claims 32 (renumbered 27) and 59 (renumbered 54) recite the limitation "A program embodied on a computer readable medium". As Applicant's specification shows (paragraph 0106), a "computer readable medium" is limited to statutory tangible embodiments, which is clearly distinct from a "computer readable transmission medium" which is limited to non-statutory intangible embodiments. This distinction is further evidenced by the amendment made to claim 32.
